in the details

The A.R.T. commitment to quality begins at the drawing board — each piece of furniture we build must meet the highest standards of beauty, function, and durability. We get the details right: finely tailored upholstery, traditional English dovetailed corners, ventilation and wire management for electronics, cedar lining in lower dresser drawers, a smooth UV finish inside the other drawers — the list goes on.

After meeting our standards for excellence, our furniture is distributed throughout 40+ countries and regions across the globe. Our collections are showcased in more than 300 A.R.T. retail stores, as well as with our 1000+ top retailers, mainstream department stores, and independent retailer partners.
