THIS IS FURNITURE OF AMERICA.

Do you remember the first time you bought a piece of furniture? That feeling of finally having it? That feeling that you earned this and your home needs this? That smile?

That is why Furniture of America exists. That joy that people feel when they add something to their homes, to their lives. FOA's identity is rooted in happiness and a desire to spread it wherever our furniture goes. Joy is the foundation of our products, the principle behind our environmental commitments, and the driving force behind our company culture.

OUR PRODUCTS

Why furniture? The answer is simple. Everyone uses it and it lasts a long time. We want everyone to pick FOA, and enjoy their Furniture of America products for years to come. With our wide selection we have products that are perfect for any size home. We hope that whenever someone opens FOA furniture they're filled with excitement knowing their home is about to get a little bit better. Maybe it's the dining set they wanted for months. Or the bunk bed for their kid's room. Or even a coffee table that ties the whole living room together. Each item brings something to their homes and lives. Even with thousands of products available we want to continue evolving and bringing people the best the industry has. We continue to innovate and find new ways to improve furniture and the lives they touch. Our portfolio of patents offers unique designs, functional utilities, or increase safety and stability. One of our innovations is LED embedded furniture patent. Its widespread use throughout the industry benefits the daily lives of millions of consumers. We make all of our innovations in hopes of improving customer experiences.

OUR COMMITMENT

We believe sustainability and ecological responsibility are necessary tenets of business. Our commitment to sustainability goes beyond a minimal effort. It holds a special place in our company, and is something we consider in every decision we make. We make every effort we can to reduce our carbon footprint, to give back more than we take, and find joy in forward thinking solutions. We are committed to making FOA products using sustainably farmed lumbar. Every tree used has two trees planted to replace it. It's a simple policy that keeps our products honest. Our wood is reliably certified by the Forest Stewardship Council, a recognized standard setter for forest products. Sometimes our search for green solutions takes us to the cutting-edge of technology. We enthusiastically use environmentally progressive materials, like poly-threads made of recycled water bottles, in some of products. When you pick an FOA product, you can be happy about what it is made with and how it was made.

OUR CULTURE

A company is only as good as its people, and at FOA we are all family. Every FOA family member commits their day to making someone's life better. This passion extends to our partners and the community. We offer unparalleled customer support programs that help build our partners' business. We commit to organizations that champion community building and contribute to local causes. When we say family it means more than just a word, it's a way of thinking and connecting to each other. This is an employee-owned "family" business where everyone gets a chance to add their name to the ownership pool. We all have a voice here. We all have responsibility here. And we all share in those commitments because we know that "Together, we make life better."

AFFILIATIONS

Since our inception in 2007, our involvement in the furniture industry has significantly grown year over year. We now proudly work with industry leadership groups, and support local and national associations for humanitarian efforts. We align ourselves with organizations that share our vision of focus on people, passion, and values.

Bringing Ideas into Reality

We believe that every design should have a story. Once our inspiration is clear, we begin sketching concepts, which go through multiple reviews and development until they become digital 3D models that can be prototyped. The consumer only sees the final product in the showroom, but rest assured that we have put the time and effort of multiple teams to design the final product you are looking at.

DESIGN

Furniture design trends come and go quickly, but people's pursuit of quality of life, product functionality, and safety will never change. We keep our finger on the pulse of the industry and look ahead as to what's coming up. Whether we're taking influences from the fashion industry or brand influencers, we collaborate and design products that reach the market quickly and ready to set the next trend. When selecting materials we know how to balance aesthetic value and safety.

FUNCTIONALITY

When we bring a product to our customers we include as much usability as we can fit. Whether it's adding a hidden drawer to a nightstand or an imbedded USB plug in to a headboard, our goal is to add functionality wherever it lends itself to the design of the piece. Details like that elevate a piece of furniture beyond its aesthetic value allowing you to get the most out of an item. We want to make your life easier and more comfortable.

Most of our utility patents stem from our desire to improve the safety of a product. Futons are great products because they fill a niche and double their functionality as a seat and a bed. Our patented fold out leg hides behind the zip-down backing to quickly add stability to a futon in the lowered position, letting you lay out without worry of the futon turning over. It is innovative and practical additions like this that make our products stand out as a smarter and secure choice.

SAFETY

We do not cut any corners when it comes to safety. We pride ourselves on durability and quality control. Our products undergo extensive testing to ensure they meet or exceed all safety standards and requirements. Any that fail to pass either require design changes or will be dropped. We also make sure, all of our paint is lead free, and our foam fillers are free of carcinogenic chemicals.

Our bunk beds achieve high marks in the industry for their safety features. We hold multiple design patents for bunk beds where our main concern is to make them more stable and durable. New designs like an embedded bracket joint structure create a pocket for the rails to fit into. Meaning your children's health and safety isn't left up to a couple of bolts, but a sophisticated metal construction.

If we can prevent injuries, we will make the changes necessary every time.

Furniture Care Guide

IMPORTANCE OF PROPER FURNITURE CARE

After spending so much time picking the perfect furniture for your home, you want them to look beautiful as long as you can. And that's possible with regular cleaning and care. Doing some regular maintenance will keep your furniture looking great and extend its durability. You won't find yourself thinking about buying new chairs in a few a years if they look just as good as when you bought them. If dirt and grime is left on your furniture it not only looks bad but can be abrasive to the material and cause damage to your precious furniture. Regular cleaning can also help you control allergens and odors that make living uncomfortable.

Proper care can be as simple as proper placement. Avoid placing furniture where it will be hit by sunlight for extended periods of the day as that will fade colors and cause materials to weaken and crack. Unless your furniture is made of teak or other materials resistant to temperature fluctuations do not place furniture near heat sources, i.e. heaters and radiators. Dry heat will dry the wood and shrink it, leading to cracks and a weakened construction.

With proper placement and regular care your furniture will look great and serve you for years to come.

CLEANING TIPS

WOOD

For most cleaning, lightly dampen a soft cloth with warm water and mild dish soap and rub the area. Lightly using water won't harm your furniture, avoid soaking. Avoid harsh cleaners that can damage the finish or sealer. Common blemishes on wood furniture come from hot coffee cups. If you have a white ring left over from a hot item left on your furniture, use a MILD abrasive to get it out. Use your finger for small spots or a soft cloth for large areas. If you have a scratch, shoe polish, and even walnuts, can be rubbed lightly onto a scratch to help cover up any blemishes. Remember, it is always best to rub, brush, or scrub with the grain, not against it.

LEATHER

First remove all dust from the leather area. It is easiest to use a vacuum cleaner with a brush attachment, and make sure to get into any crevices you can. Follow this up by wiping down the furniture with a cotton or microfiber cloth. Mix equal parts water and vinegar to make a simple cleaning solution. Dip the corner of a cleaning cloth into the mix and wring it out. You want a damp cloth to do all of your cleaning. Follow up your cleaning with a dry cloth, make sure you don't let your leather soak as that may ruin the material. For grease stains, wipe off the grease with a dry cloth, and then sprinkle baking soda on the area. Let it sit for a few hours to draw the grease out. Wipe away with a rag.

FABRIC

Put the upholstery attachment onto your vacuum and clean from left to right from top to bottom. The left to right motion helps loosen dirt from the upholstery. For stains, use HOT water with a bit of mild dish soap. Scrub the area, if the upholstery is above the wooden frame; do not let it soak through as it can damage the wood. If this does not get the stain out, then use steam. If you don't have a steam cleaner, you can use the steam button on an iron. The steam should kick out most stains, making it easy for you to blot out. Let the fabric air dry completely before using.

METAL

Furniture is relatively easy to clean. Remove any glass or upholstery, find a nice dry day outside and get to work. Fill a bucket with warm water, add some liquid dish soap. You'll want a nylon scrubbing brush, dip it into the soapy water and scrub down the entire piece. Use an old toothbrush to clean the grooves and corners. Rinse off the piece, use a damp sponge if your piece has fabric. Dry with a towel. For rusted areas, use a wire brush to remove the rust. Apply metal primer to the bare spots, allow it to dry. You can leave it as is or paint over it with a matching metal tone. Apply a car body wax to the metal for some protection and shine.

Assembly Guide

FURNITURE ASSEMBLY TIPS

- 1 - Make sure the lock or spring washer is placed between the larger flat washer and the head of the screw or bolt. Otherwise, it can damage your furniture and/or lead to unsafe assembly.
- 2 - Only tighten when instructed to do so. Properly aligned all parts, and then use the appropriate hand tool to tighten. Do not over tighten. If power tools are used, set at the lowest RPMs/power setting available.
- 3 - When separating parts/components, use caution as to not damage product. Place the contents on a carpeted or padded area to protect them from damage. Ensure furniture rests on a flat and level surface with each leg evenly touching the floor.
- 4 - Some furniture includes height adjustment knobs underneath each leg. Turn clockwise to lower or counter-clockwise to raise each leg.
- 5 - Save the instructions and any supplied tools for later maintenance. After two weeks, check and tighten any loose hardware. Repeat every six months thereafter.
- 6 - Any products over 30” of height must be attached to a wall. Serious injury or death may occur.

ASSEMBLY RATING

The Assembly Rating is a 5-point system that gauges the degree of difficulty to assemble a specific product (with 1 being easy and 5 being difficult). For some products, two people are recommended for safe assembly.

2	Average time for assembly: 1-2 hours (15-30 minutes for professional assembly service)
3	Average time for assembly: 2-3 hours (30 minutes -1 hour for professional assembly service)
4	Average time for assembly: 2-4 hours (1-2 hours for professional assembly service)
5	Average time for assembly: 4+ hours (2-3 hours for professional assembly service)

Product Dimension Guide

We provide accurate dimensions for our products so you can properly plan your room layout or fit it into the empty space you have at home. Catalog photos don't always give you the best perspective on size, and large showrooms can often make a piece look smaller so proper measurements will help you decide if a product is right for your home. The diagrams to the right help decipher how we measure our products so you can use painter's tape to mark out exactly how a piece will fit in a room.

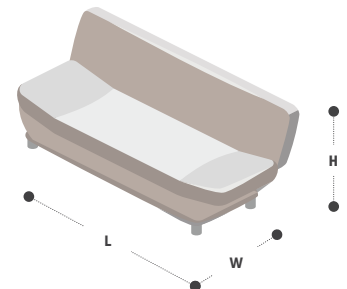

Another thing to consider is how a piece will be transported into your home. Will you need to get a truck? If you live in an apartment, does it have a freight elevator? Does that beautiful Chesterfield sofa you just bought fit through your doorway? Pull out the tape measure and save yourself future disappointment.

Statement pieces are chosen to do just that—make a statement. And this solid wood bedroom speaks for itself loud and clear. The bed's towering wingback-style headboard is definitely the centerpiece. It features multiple deep grooves that run parallel from left to right, adding texture and more weight to an already visually hefty piece. On the panels of the case goods, the same veneer treatment could be found, accentuated by the golden horizontal finger pulls. The dark walnut finish gives this set a bold presence that is hard to ignore.

This bedroom set uses V-patterned wood panels to create an elegant display of color and texture. Smooth veneer panels and molding frame lavish V-shaped panels that have retained their grain. The result is an almost iridescent shine that can give this set a two toned appearance. A tall headboard design allows for more wood to show off its luscious quality and holds a hidden internal USB outlet.

Natural inspiration and minimalism collide in this marvelous collection. A light walnut finish is evident across the pieces, with straight lines that are crisp and sleek. The bed itself features the only flashy part of the set—weaving made of rattan that spans the entire headboard from left to right. Even that is in a neutral color that is purposefully restrained. Barely-there finger pulls give the matching case goods their irresistible allure in a collection that is as classy as it is modest.

Rustic aesthetics go hand in hand with utilitarianism and a shrewd use of space. Everything serves a function, and this bed follows that principal. The footboard features drawers, making use of the under bed space for storage of linen or clothes. The headboard has three cavernous bookcase style shelves, complete with built in USB plug-ins. Cover your shelves with reading material, or decorative accent pieces that can elevate the humble design and no frill nature of this bed. This bedroom set is an amalgamation of designs and styles that fit together seamlessly, making it a highly versatile ensemble that will fit into almost any bedroom aesthetic. The weathered finish shows just enough wear without hampering the lovely wood grain on the drawer faces, which add a hit of natural shape. A soft padded headboard panel would normally be the highlight of the room but two slim shelves offer you a chance to show off a little decorative touch, and proudly display them with built in LED lights.

Georgette CM7184

The vertical plank-style panel headboard with a curved, bell-shaped design is the highlight of this bedroom set. On each of the four corners of the bed, a turned finial sits atop each post, which connects visually to the smooth, rounded bun feet. The wavy skirts of the case goods and their dark bronze hardware provide the much needed contrast in a bright set entirely finished in antique white. A built-in USB/power outlet on the night stand will help keep your technology powered through the night.

This bedroom set will fit in well in a Mediterranean-inspired space. The headboard and footboard feature fluted panels and columns topped with foliage details reminiscent of classical architecture. There's something magnificent about home decor with transitional styling; this bedroom set is a perfect example. The floral and rope faux wood details are borrowed elements from traditional pieces. While the headboard is grand and bold, the beige fabric centerpiece with diamond tufting softens the bed and reinforces the rustic natural tone finish to bring warmth to any room. The rustic glam look is a classic. This style borrows from the French country home style and blends it with the tones and materials of rustic aesthetics. The contrast creates the look of this bedroom set. Elegant details like curling wood trims, and tufted headboards meet with rich wood tones giving you this stunning balance of high class royalty with a weathered and worn feel. You'll feel like you stopped at a highbrow bed and breakfast every time you go to bed.

In this elegant master suite, details are used for dramatic effect. The headboard design, with its bell shape and button-tufted fabric, celebrates the daintiness of the curves repeated throughout the set. The same contours are found on the intricate rope carvings on each of the corner posts. Flatter-than-normal bun feet are used. On the case goods, slender fluted panels paired with antique-looking nickel hardware are part of the overall motif.

If luxury is a necessity for the bedroom, then this bedroom set is a must-have. The sheer size of the headboard and footboard is a sight to behold. Button tufted leatherette centerpieces are framed by intricate faux wood carved details exuding baroque influences. All drawers are dovetail construction—the top drawer feature felt-lining, middle drawer are birch, and bottom drawers made of cedar wood, a natural insect repellent. With all its lavish offerings, to say this traditional set is over-the-top would be a gross understatement.

Erlangen CM7462WH

NEW

A fitting bedroom set to a modern home, the Erlangen collection features a striking two-tone design. The sharp contrast between the gloss white finish and natural wood create a dramatic effect that’s both sleek and warm at the same time. Beyond their singular function, the vertical chrome handles cut the drawer fronts in half, giving the case goods their progressive appeal. The same is seen on the headboard, with chrome accents that playfully reflects light in between the different panels.

Calandria CM7320

Exuding regality in its extensive details and color tones, the Calandria bedroom set first stuns, and then mesmerizes. Matching case goods adds to the luminosity of the set with their crystal-like hardware, mirror accent trim, and front drawer panels sharing the same pebbled texture as the headboard and footboard.

Belladonna CM7417SV

Glam hardly goes out of style. This look borrows from the opulence of the rock and roll era—mirrors are aplenty, embedded on every front panel of the bed and matching case goods. By design, the abundance of reflective surfaces is meant to emphasize the LED lights found on the bottom edges of each piece. This placement produces a glow that can be seen emitted on the floor for a nice ambient effect. Large bulbs line the mirror allowing its use as a vanity, doubling down on that celebrity motif.

This beautiful bedroom set is the perfect way to illuminate any space. A strip of white LED light is hidden behind the headboard and footboard panel, resulting to a visually stunning glow around the rectangular centerpieces. The same is true with the matching mirror. The reflected light blends beautifully with the rest of the ensemble, which features a brushed gray finish and a semi-matte look. Finally, chrome bracket legs allow the light to bounce off more for a potentially dazzling set.

Offering a clean modern design and a no frills approach to ornamentation, this bedroom collection is your key to a sleek bedroom decor. The smooth gray finish keeps the collection grounded in sophistication. Chrome trim highlights add a spark of flash and vibrancy, accentuating the rigid angles and lines of the design. Onyxa CM7198GY

With its upholstered gray leatherette headboard, this bed brings class in any given space. In the dark, graphite finish, one can find a sense of boldness and refinement. An air of glamour comes from the glitter-imbued frames with light bouncing off beautifully from the edges of the headboard, footboard, and case goods. Matching that luster are the chrome handles with crystal-like insets, while the delicately curved cabriole legs add luxurious appeal.

ASYMMETRICAL TWO-TONE DESIGN

Birsfelden F0A7225WH

Just one look, and there is no doubt where this bedroom set belongs—in a modern home. For starters, a striking two-tone design is produced by allowing large blocks of high gloss white to be interrupted by dark, metallic gray gaps. The headboard and case good panels all feature this bold color contrast. True to modern pieces, drawer handles are out of sight, as the gaps serve as concealed pulls as well. Look closer, and you'll notice how the gaps themselves are not even in width; this purposeful asymmetry adds more to the appeal and modern vibe.

If you're a fan of sleek minimalism this bedroom set will give you exactly what you want. A low profile platform design keeps the bed floating just above the ground. The design is the only embellishment necessary, its form and function flawlessly entwined. The night stands are low lying and flush with the bed platform so it feels uniform and balanced. The dresser and chest add a touch of chrome to the high gloss finishes to break up the shapes without compromising on modern sensibilities.

Statement pieces need not to be exuberant; this bed is a testament to that. The focal point is the headboard made of padded flannelette, designed similar to a honeycomb pattern. It catches the eye just as much as any over-the-top piece, but does so in a more refined and tasteful manner. For comfort, the full frame is upholstered, with short, almost-invisible legs that position the bed close to the ground. The lower profile adds to its contemporary appeal.

The vertical plank-style panel headboard with a curved, bell-shaped design is the highlight of this bedroom set. On each of the four corners of the bed, a turned finial sits atop each post, which connects visually to the smooth, rounded bun feet. The wavy skirts of the case goods and their dark bronze hardware provide the much needed contrast in a bright set entirely finished in antique white. A built-in USB/power outlet on the night stand will help keep your technology powered through the night.

In this stylish daybed, the light oak frame made of pine wood shines in tandem with the neutral beige fabric. Much of the design reminds us of French country influences, with small details like the nailheads that border the edges of the padded linen panels on the side and front. Softly tapered wooden legs add to the daintiness of this muted yet classic design.

Picking the Right Mattress

Studies show that the average person spends a third of their life in bed. Simply put, you owe it to yourself to get a mattress that will improve your quality of life. In addition, mattresses accumulate dust mites, fungus, and other germs that trigger allergies and impact your sleep. After years of using the same mattress, it's time to think about starting anew. Here are some tips to help you pick the right mattress for your life.

Firmness & How You Sleep

Your sleep patterns and weight are the key to finding a general firmness that is right for you. In general the more you weigh the firmer a mattress should be to provide the support you need. Combine that with these sleep position tips to find the right fit.

Side Sleeper

You will need a soft mattress with a lot of support for your neck and back. If your mattress is too firm to conform and support your body, it'll put a lot of pressure on your back, neck, and shoulders resulting. Look for a memory foam or pillow top mattress in medium plush to plush firmness to caress you while you sleep.

Back Sleeper

You will have the pick of the bunch, but be sure it has enough support that your spine is aligned to avoid lower back pain. The perfect mattress will provide enough pressure point relief, with great support. Look at medium firm to firm mattresses, unless you want something softer.

Stomach Sleeper

Your top priority should be support. If your torso sinks at the middle, you'll find yourself with lower back pains and other problems. You need a mattress that provides equal support across the entire body. Memory foam will be too smothering so pick an innerspring or pillow top on the firm side of the spectrum.

Innerspring vs. Foam vs. Pillow Top

Innerspring Mattresses are the most popular, by far. They support you with spring coils that are individually encased within the core, atop the coils is layer of cushioning of either pillow or memory foam. These mattresses keep their shape and weather years of use. If you like a fair amount of bounce and the "classic" mattress feel, this is the type for you.

Foam Mattresses are composed of several layers of foam to provide a body hugging sleep surface. They offer great support, and pressure relief because the material shapes to your form and contours along the ridges of your body. If you tend to heat up at night, opt for a gel infused foam for superior temperature regulation and comfort.

The Pillow Top Mattress often combines both of the previous options. Innerspring coils give shape and offer that classic bounce, while an extra padded top helps increase comfort and cushion. Pillow top mattresses can be stuffed with an extra layer of pillow cushioning, but many of ours include gel or memory foam, giving you the body contouring comfort and pressure relief of a foam mattress.

These are just general ideas for the benefits of each type of mattress, what you ultimately choose will depend on your needs and comfort.

Philipsburg CM3513BK-T

Nothing says grand like a large transitional dining table—especially if it’s in an unexpected color like black. A statement piece like no other, the table legs are bold and turned while the ladder back chairs feature smooth curving lines that help soften the silhouette. Gray fabric seats offer contrast and pops against the dark frames, their smoothness pitied against the distressed look of the antique finish. With the top expandable by sixteen inches, there’s more to fit in this visually arresting piece.

Transform your dining room into a classic setting of elegance that can accommodate a party of up to eight. The all-solid wood construction is obvious, built to last. Finished in glorious dark walnut, the direction of the pronounced woodgrain of the table is contrasted by the masterful integration of sections that create a broad and dynamic geometric pattern. Molded edges overlap above the beautifully curved sides that are enhanced with carved floral accents. The legs share the unique attributes of contour and delicate etched trim that match perfectly with the upholstered ladder-back side chairs. Overall, the variety of exquisite details defy any sense of mediocrity, this is a truly impressive set.

With the ability to expand the table top with two leaves, there is room for everyone in this table. Conveniently, the leaves on both ends retract easily when not in need, making this a versatile piece for any home. The style is of course unmistakably farmhouse—the trestle base and the chair backs both have the classic cross back design. The set might be big in stature as a while, but the lighter shade of brown coupled with the beige cushions gives it a hint of delicateness that serves only to enhance its overall appeal.

The weathered Antique White-brushed finish of this set reflects the organic appeal of a rustic farmhouse environment, but the designs contained within are the stuff of legend. Elaborate fiddle-style chairbacks separate these chairs from the norm, further complemented by daring arched legs and finely upholstered gray-weave seats. The grand base of the table maintains the theme with sweeping pillars attached to cross-connected feet. Throw in a bit of contrast with the natural color of the wooden top and a timeless ensemble is borne.

It's the black and dark gray dining ensemble designed with esoteric flair for the alternative palate. The tall table's wide legs taper in as they reach the ground. A subtly visible wood grain vitalizes an otherwise flat finish identical to that of the accompanying chairs. A dynamic new take on the traditional ladder-back design, it's a visibly solid construction of daring geometry all resolved by the relief of the plushly upholstered seats. Uniquely, it serves an almost dual-identity - it may appear discreet in a dark room, yet bold in the light.

REGULAR HEIGHT

Regensdorf CM3516T NEW

Here's the thing with glam designs: there's a very thin line between pulling the style off effectively or coming off as bad taste. This dining table masterfully straddles that line. With its all-glass table top, luxury is at the forefront here. It's supported by a rectangular base that features an eye-catching detail—encrusted crystals encased underneath a sheet of glass. The same details can be found in the optional server, which includes a standard way to store bottles of wine and glassware. What pull this thing together are the matching chairs. Upholstered in deep navy with acrylic buttons, it's the kind of detail takes the whole ensemble up a whole new level.

Endlessly modern and sleek this dining table takes on the popular design idea of ghost tables found in coffee table sets and utilizes it for the dining room. The barely there design really opens up a room and will have guests marveling at it. Metal and wood collide in this contemporary set with a unique metal base, which extends through the table top, creating what looks like lines traversing a sea of white. The contrast between the dark metal and the glossy white creates a unique geometric motif. Paired with the beautiful diamond tufting and sharp, tapered legs on the matching chairs, it's modern with a subtle hint of retro vibes.
